

THE  
AMERICAN JOURNAL  
OF  
PHYSIOLOGY

VOLUME 140

BALTIMORE, MD.  
1943-1944

# JUSTICE POLICY

1970-1971

1970-1971

## CONTENTS

### No. 1. OCTOBER, 1943

Capillary Permeability to Horse Proteins in Burn-Shock. <i>Martin G. Netsky and Samuel S. Leiter</i> .....	1
Water Shifts in Deep Hypothermia. <i>Henry G. Barbour, Elizabeth A. McKay and William P. Griffith</i> .....	9
Further Studies on the Water Balance of Frogs. <i>F. Brunn</i> .....	20
Do Rats Thrive When Drinking Sea Water. <i>Edward F. Adolph</i> .....	25
The Basal Metabolism of Mid-Western College Women. <i>Martha S. Pittman, Dena Cederquist, Bernice L. Kunerth, Virginia Shinkle, Margaret A. Ohlson, Charlotte M. Young, Eva Donelson, Lucile M. Wall, Hughina McKay, Mary Brown Patton and Gladys M. Kinsman</i> .....	33
Indicator Yellow. <i>Arlington C. Krause</i> .....	40
The Effect of Adrenalectomy on the Absorption of the Short Chain Fatty Acids and Their Triglycerides. <i>Lucien A. Bavetta</i> .....	44
A Study with Radioactive Isotopes of the Permeability of the Blood-Cerebrospinal Fluid Barrier to Ions. <i>David M. Greenberg, Robert B. Aird, Muriel D. D. Boelter, W. Wesley Campbell, Waldo E. Cohn and Makio M. Murayama</i> .....	47
Efficacy of Isotonic Sodium Chloride and Glucose Solutions in Preventing Shock Following Venous Occlusion of a Limb in the Dog. <i>L. N. Katz, L. Friedberg and R. Asher</i> .....	65
Studies on the Physiology of Manganese in the Rat. <i>L. W. Wachtel, C. A. Elvehjem and E. B. Hart</i> .....	72
The Peripheral Visual Acuity of 100 Subjects. <i>Frank N. Low</i> .....	83
The Production of Hypothalamic Obesity in Rats Already Displaying Chronic Hypopituitarism. <i>A. W. Hetherington</i> .....	89
Inhibition of the Turtle's Atria by Single Induction Shocks Applied Directly. <i>Frank P. Knowlton</i> .....	93
The Adrenals and Hypophysis in the Carbohydrate Metabolism of the Eviscerated Rat. <i>Jane A. Russell</i> .....	98
Observations on Injury and Repair of Peripheral Nerves. <i>Hiram E. Essex and Nilson de Rezende</i> .....	107
A Comparative Study of Muscle Atrophies Caused by Denervation and Acute Inanition. <i>H. M. Hines, J. D. Thomson and B. Lazere</i> .....	115
The Effect of Anoxia on Peristalsis of the Small and Large Intestine. <i>Edward J. Van Liere, David W. Northup, J. Clifford Stickney and George A. Emerson</i> .....	119

### No. 2. NOVEMBER, 1943

The Effect of Severe Hemorrhage, Seasonal Temperature and Diurnal Variation on Blood Lactate in the Dog. <i>Major M. Swan</i> .....	125
Mucus, Acid and Water Secretion in the Stomach following the Injection of Pilocarpine. <i>Franklin Hollander and Julius Stein</i> .....	136
A Comparison of the Configuration in the Electrocardiogram of Endocardial and Epicardial Extrasystoles. <i>H. E. Hoff and L. H. Nahum</i> .....	148
A Renal Reabsorptive Mechanism in the Dog Common to Glycin and Creatine. <i>Robert F. Pitts</i> .....	156
Rapid Acclimatization to Work in Hot Climates. <i>Sid Robinson, E. S. Turrell, H. S. Belding and S. M. Horvath</i> .....	168
Consecutive Changes in Cutaneous Blood Flow, Temperature, Metabolism and Hematocrit Readings during Prolonged Anesthesia with Morphine and Barbitol. <i>Harold D. Green, Neil D. Nickerson, Robert N. Lewis and Bernard L. Brofman</i> .....	177

Metabolism of the Perfused Dog's Brain. <i>Carroll A. Handley, H. Morrow Sweeney, Quinten Scherman and Robert Severance</i> .....	190
The Effectiveness of Plasma, Gelatin and Saline Transfusions in Preventing Shock Induced by Leg Muscle Trauma and Tourniquets. <i>W. Kleinberg, J. W. Remington, W. J. Eversole, R. R. Overman and W. W. Swingle</i> .....	197
The Eccentricity of Standing and Its Cause. <i>F. A. Hellebrandt, Bette G. Nelson and Eleanor M. Larsen</i> .....	205
On the Constitution of Prothrombin. <i>Armand J. Quick</i> .....	212
The Effect of Epinephrine upon Frog Renal Hemodynamics in the Intact Animal. <i>Roy P. Forster</i> .....	221
Blood Pressure Responses of Dogs to Vitamin A and Vitamin D <sub>2</sub> . <i>L. N. Katz, S. Rodbard and J. Meyer</i> .....	226
The Transfer of Androgens in Parabiatic Rats. <i>Elva G. Shipley, Roland K. Meyer and Clyde Biddulph</i> .....	230
Effects of Anesthetic Dosage of Pentobarbital Sodium on Renal Function and Blood Pressure in Dogs. <i>A. C. Corcoran and Irvine H. Page</i> .....	234
The Effect of Vitamin A on Some Renal Functions of the Dog. <i>R. J. Bing</i> .....	240
The Effect of Atropine and Quinidine Sulphate on Atrophy and Fibrillation in Denervated Skeletal Muscle. <i>D. Y. Solandt, D. B. DeLury and John Hunter</i> .....	247
The Effect of Temperature of the Blood on the Heart Rate. <i>Ernest K. Landsteiner and Morris Hayes</i> .....	256
The Effect of the Administration of Estrogen on the Mechanism of Ascorbic Acid Excretion in the Dog. <i>Ewald E. Selkurt, L. James Talbot and C. Riley Houck</i> ..	260
Neuromuscular Transmission in the Single Nerve and Muscle Fiber Preparation. <i>S. E. Steiman</i> .....	269
The Kidney as a Source of Glucose in the Eviscerated Rat. <i>Roger M. Reinecke</i> .....	276

## NO. 3. DECEMBER, 1943

The Effect of Saline Washings of Isolated Jejunal Loops on Gastric Secretion. <i>William DeW. Andrus, Jere W. Lord, Jr., Paul Stefko and James A. Dingwall, III</i> ..	287
Studies on the Effect of Anoxic Anoxia on the Central Nervous System. <i>M. Kessler, H. Hailman and E. Gellhorn</i> .....	291
The Effect of Anoxic and Anemic Anoxia on the Leucocyte Count. <i>C. H. Cress, F. B. Clare and E. Gellhorn</i> .....	299
The Effects of Polycythemia and of a Carrot Diet on Resistance to Anoxia. <i>Paul Wetzig and Fred E. D'Amour</i> .....	304
Water and Fat Content of Orbital Tissues of Guinea Pigs with Experimental Exophthalmos Produced by Extracts of the Anterior Pituitary Gland. <i>George K. Smelser</i> .....	308
The Absence of Phosphate Transfer in Oxidative Muscular Contraction. <i>Jacob Sacks</i> ..	316
The Persistence of Heat Acclimatization in Man. <i>Austin Henschel, Henry Longstreet Taylor and Ancel Keys</i> .....	321
Some Effects of Pectin Solutions During Posthemorrhagic Hypotension. <i>Samuel Middleton and Carl J. Wiggers</i> .....	326
The Renal Excretion of Chloride by the Normal and by the Diabetes Insipidus Dog. <i>Ruth S. Hare, Kendrick Hare and Donald M. Phillips</i> .....	334
Increased Red Blood Cell Fragility after Fat Ingestion. <i>Joan Longini and Victor Johnson</i> .....	349
The Effect of Oxygen Deprivation on the Relation between Stimulus Intensity and the Latency of Visual After-Images. <i>R. A. McFarland, L. M. Hurvich and M. H. Halperin</i> .....	354
The Effect of Cyanide and other Metal Binding Substances on the Pharmacological Action of Epinephrine. <i>Jonas S. Friedenwald and Wilhelm Buschke</i> .....	367

Some Effects of Low Barometric Pressures on Kidney Function in the White Rat. <i>Herbert Silvette</i> .....	374
The Effects of Low Barometric Pressures on the Structure of the Kidneys of the White Rat. <i>James E. Kindred</i> .....	387
The Validity of "Ovulation Potentials". <i>James M. Snodgrass, John Rock and Miriam F. Menkin</i> .....	394
Rôle of the Kidneys in the Resistance of Rats to Hemorrhage. <i>Henry T. Bahnson</i> .....	416
The Measurement of Bleeding Volume in the Dog for Studies on Blood Substitutes. <i>Hampden Lawson</i> .....	420
The Relative Value of Various Fluids in Replacement of Blood Lost by Hemorrhage, with Special Reference to the Value of Gelatin Solutions. <i>Hampden Lawson and W. S. Rehm</i> .....	431
The Effect of the Sodium Chloride Intake on the Work Performance of Man During Exposure to Dry Heat and Experimental Heat Exhaustion. <i>Henry Longstreet Taylor, Austin Henschel, Olaf Mickelsen and Ancel Keys</i> .....	439
Effects of Purified Antero-Pituitary Hormones on the Carbohydrate Stores of Hypophysectomized Rats. <i>V. V. Herring and Herbert M. Evans</i> .....	452

## No. 4. JANUARY, 1944

The Effect of Repeated Determinations on the Basal Metabolism of Children. <i>Robert C. Lewis, Anna Marie Duval and Alberta Riff</i> .....	461
The Effect of Damage to the Tracheal Mucosa upon the Drainage of Respiratory Tract Fluid. <i>Eldon M. Boyd, W. F. Perry and Mary E. T. Stevens</i> .....	467
Carbohydrate Regulation under Severe Anoxic Conditions. <i>L. Van Middlesworth, R. F. Kline and S. W. Britton</i> .....	474
The Effect of Sulfonamides on the Blood Oxygen and Carbon Dioxide Capacity, Arterial Saturation and Blood Pigments. <i>John F. Hall, Jr.</i> .....	483
The Nervous Factor in Shock Induced by Muscle Trauma in Normal Dogs. <i>W. J. Eversole, W. Kleinberg, R. R. Overman, J. W. Remington and W. W. Swingle</i> .....	490
Changes in the Renin-Angiotonin System in Hemorrhagic Shock. <i>Dean A. Collins and Angie S. Hamilton</i> . With the technical assistance of <i>Margaret Casey Collins and Andrew Sokalchuk</i> .....	499
Further Study of Boron in the Nutrition of the Rat. <i>J. D. Teresi, E. Hove, C. A. Elvehjem and E. B. Hart</i> .....	513
Cardiac Output and Total Peripheral Resistance Measurements in Experimental Dogs. <i>Harold C. Wiggers</i> .....	519
A Comparison of the Renal Reabsorptive Processes for Several Amino Acids. <i>Robert F. Pitts</i> .....	535
The Relation between Uric Acid Excretion and Hippuric Acid Synthesis in Man. <i>Stanley T. Michael, Joseph M. Looney and Embrie J. Borkovic</i> .....	548
In Vivo Hemolysis Produced by Soap Injection. <i>L. Willard Freeman, Arthur Loewy and Victor Johnson</i> .....	556
Action of Equine Gonadotropin in Normal and Hypophysectomized Immature Male Rat. <i>James H. Leatham</i> .....	561
Sensitivity of <i>Drosophila</i> to Poisoning by Oxygen. <i>Carroll M. Williams and Henry K. Beecher</i> .....	566
Specific Gravity and Total Nitrogen of Pancreatic Juice Secreted in Response to Various Stimuli. <i>J. Earl Thomas and J. O. Crider</i> .....	574
The Testing of Color Vision in Relation to Vitamin A Administration. <i>W. F. Hamilton, A. P. Briggs and R. E. Butler</i> .....	578
Relation of Heart Rate to Slow Waves in the Electro-Encephalogram During Over-ventilation. <i>Chester W. Darrow and Julian H. Pathman</i> .....	583

The Effect of Crystalloidal and Protein-Containing Solutions on the Body Fluids and Circulating Plasma Proteins. <i>C. T. Ashworth, Z. W. Hutcheson, W. T. Payne and A. W. Jester</i> .....	589
Radioactive Phosphate as an Indicator of the Relationship between the Phosphate Changes of Blood, Muscle and Liver, Following the Administration of Insulin. <i>Nathan O. Kaplan and David M. Greenberg</i> .....	598
The Effect of Thiamine Deficiency and of Reduced Food Intake on Resistance to Low Oxygen Tension in the Cat. <i>Dietrich C. Smith, Robert H. Oster and James E. P. Toman</i> .....	603

## NO. 5. FEBRUARY, 1944

The Rate of Decline in Resistance to Anoxia of Rabbits, Dogs and Guinea Pigs from the Onset of Viability to Adult Life. <i>Howard G. Glass, Franklin F. Snyder and Elizabeth Webster</i> .....	609
Nerve Fiber Counts and Muscle Tension After Nerve Regeneration in The Rat. <i>Paul Weiss and C. J. Campbell</i> .....	616
Purification and Bioassay of Tissue Extracts Capable of Lowering the Blood Pressure of Hypertensive Rats. <i>J. W. Remington, G. F. Cartland, V. A. Drill and W. W. Swingle</i> .....	627
Plasma Retention, Urinary Excretion and Effect Upon Circulating Total Red Cell Volume of Intravenous Gelatin in Dogs with Diminished Plasma Volume. <i>J. Maxwell Little and J. T. Dameron</i> .....	636
Previous Diet and The Apparent Utilization of Fat in The Absence of The Liver. <i>Sidney Roberts, Leo T. Samuels and Roger M. Reinecke</i> .....	639
The Influence of The Army Pack on Postural Stability and Stance Mechanics. <i>F. A. Hellebrandt, E. Corinne Fries, Eleanor M. Larsen and L. E. A. Kelso</i> .....	645
The Interaction of Myelinated Fibers in Mammalian Nerve Trunks. <i>Arturo Rosenbluth</i> .....	656
Metabolism of Radio-Iodine in The Thyroids of Rats Exposed to High or Low Temperatures. <i>C. P. Leblond, J. Gross, W. Peacock and R. D. Evans</i> .....	671
Cardiac Output and Total Peripheral Resistance in Post-Hemorrhagic Hypotension and Shock. <i>Harold C. Wiggers and Samuel Middleton</i> .....	677
The Renal Amino Acid Clearance in The Normal Dog. <i>E. Goettsch, J. D. Lyttle, W. M. Grim and P. Dunbar</i> .....	688
The Effect of Thyroxin on The Maximum Rate of Transfer of Glucose and Diodrast by The Renal Tubules. <i>John J. Eiler, T. L. Althausen and Mabel Stockholm</i> .....	699
Stimulation of Pepsin Secretion by Means of Acid in The Intestine. <i>M. H. F. Friedman, I. J. Pincus, J. Earl Thomas and M. E. Rehfuess</i> .....	708
The Low Incidence of Adrenal Alterations in Black Rats on Filtrate Factor Deficient Diets. <i>Elaine P. Ralli and Irving Graef</i> .....	713
Positive Injury Potentials of The Stomach. <i>Warren S. Rehn</i> .....	720
Dynamics of Collateral Circulations. <i>Harold D. Green, Richard S. Cosby and Karl H. Radzow</i> .....	726
Red Cell Volume, Plasma Albumin and Globulin in Fatal Surgical Shock Due To Repeated Hemorrhage. <i>Robert Elman, Carl Lischer and Harriet W. Davey</i> .....	737
Index.....	743
